Reliability Indicator:

Not established

End Application:

Dishwashing machine

Winding Operating Current:

0.54 amperes ac single component single secondary and 1.08 amperes ac single component single secondary

Winding Operating Voltage:

240.00 ac pounds per hour dry single component single primary and 480.00 ac pounds per hour with retaining chain single component single primary

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
