**Reliability Indicator:**

Not established

**End Application:**

Dishwashing machine

**Winding Operating Current:**

0.54 amperes ac single component single secondary and 1.08 amperes ac single component single secondary

**Winding Operating Voltage:**

240.00 ac pounds per hour dry single component single primary and 480.00 ac pounds per hour with retaining chain single component single primary

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
