Reliability Indicator:

Established

Overall Length:

4.500 inches

Core Construction:

Powdered single component

Body Width:

4.000 inches

Body Height:

3.200 inches

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single primary

Dc Resistance Rating In Ohms:

2.800 single component single primary

Terminal Type And Quantity:

2 bonding pad

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
