End Application:

Transformer rectifier unit, f5-b aircraft

Special Features:

190/210 vac, 3 phase, 4 wire wye input voltage; 5a per phase input current; 320/510 hz input frequency; 24/31vdc output voltage; 50a continuous ou tput current; integral cooling fan

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
