Overall Length:

12.500 inches

Overall Height:

5.340 inches

Overall Width:

6.690 inches

Frequency Rating:

60.0 hertz single component

Input-output Phase Relationship:

Single phase to single phase single component

Inclosure Type:

Fully enclosed

Mounting Facility Quantity:

4 single group

Mounting Method:

Flange single group and unthreaded hole single group

Special Features:

Rated 2kva, 120/240 volts; built in accordance with nema, ansi, ul and csa standards

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
