Reliability Indicator:

Not established

Input-output Phase Relationship:

Single phase to single phase single component

Body Length:

1.075 inches

Body Width:

0.400 inches

Body Height:

1.225 inches

End Application:

Battery charger portable 224-01

Inclosure Type:

Open

Mounting Method:

Plug-in single group

Special Features:

Pin dia: 0.045; interior hole dia: 0.390 min.

Terminal Type And Quantity:

7 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
