Body Length:

4.750 inches

Body Width:

4.000 inches

End Application:

Starter motor

Winding Operating Voltage:

150.00 ac pounds per hour wet all components all primary input

Special Features:

60 hz, impervitran epoxy encapsulated; pri 480 volts; secondary 120 volts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
