Reliability Indicator:

Not established

Overall Length:

0.110 inches

Overall Height:

0.115 inches

Overall Width:

0.090 inches

Core Construction:

Solid single component

Special Features:

Ambient temperature range: minus 40 degree celcius to plus 125 degree celcius operating. altitude: 50,000 feet.

Terminal Type And Quantity:

2 solder stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
