**Reliability Indicator:**

Not established

**Overall Height:**

0.580 inches

**Inductance Rating:**

1.25 millihenries single component single primary

**Overall Diameter:**

1.010 inches

**Winding Operating Current:**

0.5 amperes dc single component single primary

**Dc Resistance Rating In Ohms:**

1.400 single component single primary

**Product Name:**

Reactor-filter, radio frequency

**Terminal Type And Quantity:**

2 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A058b0
