Reliability Indicator:

Not established

Overall Height:

0.580 inches

Inductance Rating:

1.25 millihenries single component single primary

Overall Diameter:

1.010 inches

Winding Operating Current:

0.5 amperes dc single component single primary

Dc Resistance Rating In Ohms:

1.400 single component single primary

Product Name:

Reactor-filter, radio frequency

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
