Reliability Indicator:

Not established

Inductance Rating:

0.03 henry single component single winding

End Application:

An/frt-31, transmitting set, radio

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single winding

Winding Operating Current:

80.0 amperes dc single component single primary

Product Name:

Inavy-reactor, filter

Special Features:

Operating voltage: 12.5kv

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
