Body Height:

0.138 inches

End Application:

Aircraft, hornet f/a-18

Rating Method:

Electrical all components all primary

Product Name:

Shielding beads, ferrite, leaded, emi suppressor

Special Features:

Operating temperature: -54 to 110 degrees (c). Impedance: 10 mhz - 100 min., 25 mhz - 124-187

Terminal Type And Quantity:

2 solder stud

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
