**Body Height:**

0.138 inches

**End Application:**

Aircraft, hornet f/a-18

**Rating Method:**

Electrical all components all primary

**Product Name:**

Shielding beads, ferrite, leaded, emi suppressor

**Special Features:**

Operating temperature: -54 to 110 degrees (c). Impedance: 10 mhz - 100 min., 25 mhz - 124-187

**Terminal Type And Quantity:**

2 solder stud

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
