#### **Overall Length:**

4.375 inches

#### **End Application:**

Damper, ventilation vdc-23

## Inclosure Type:

Open

#### **Features Provided:**

Color coded terminal

#### Winding Operating Voltage:

480.00 ac pounds per hour with retaining chain single component single primary and 277.00 ac pounds per hour dry single component single primary and 240.00 ac pounds per hour with retaining chain single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single component single primary and 208.00 ac pounds per hour dry single primary ac pounds per hour dry single per hour dry single per hour dry single per hour dry single per hour

Shelf Life:

N/a

#### Unit Of Measure:

\_ \_\_\_\_

## Demilitarization:

No
