Reliability Indicator:

Not established

Body Length:

1.600 millimeters

Body Width:

0.800 millimeters

Body Height:

0.800 millimeters

End Application:

C-17a aircraft

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single primary

Winding Operating Current:

500.0 milliamperes dc single component single primary

Terminal Type And Quantity:

2 bonding pad

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
