**Reliability Indicator:**

Not established

**Body Length:**

1.600 millimeters

**Body Width:**

0.800 millimeters

**Body Height:**

0.800 millimeters

**End Application:**

C-17a aircraft

**Inclosure Type:**

Fully enclosed

**Rating Method:**

Electrical single component single primary

**Winding Operating Current:**

500.0 milliamperes dc single component single primary

**Terminal Type And Quantity:**

2 bonding pad

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
