Overall Length:

0.840 inches

Overall Width:

0.320 inches

Core Construction:

Solid all components

Inclosure Type:

Fully enclosed

Mounting Method:

Terminal all groupings

Product Name:

Inductor

Special Features:

Core: high resistivity ferrite core; encapsulant: epoxy; terminals: tin over nickel; inductance tolerance: +/- 15 percent.

Terminal Type And Quantity:

2 compression

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
