**Body Length:**

0.820 inches

**Rating Method:**

Electrical single component single primary

**Dc Resistance Rating In Ohms:**

0.107 single component single primary

**Product Name:**

Miniaturized power inductor with axial leads

**Terminal Type And Quantity:**

2 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
