Overall Length:

13.250 inches

Overall Height:

11.750 inches

Overall Width:

10.300 inches

End Application:

Power panel enclosure 709692-101/709693-101

Inclosure Type:

Partially enclosed

Winding Operating Current:

3400.0 amperes dc single component 2nd primary output

Winding Operating Voltage:

4000.00 dc pounds per hour wet single component 2nd secondary

Terminal Type And Quantity:

7 screw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A058b0
