Overall Height:

7.700 millimeters

Overall Diameter:

27.800 millimeters

Overall Thickness:

3.600 millimeters

End Application:

Armee de terre; arm with ground

Special Features:

Core, electromagnetic component; plate material thermosetting plastic sumikon pm9630 pf, glass reinforced; pin material copper clas steel, sn plated; pin length 6.2mm + or - 0.2mm; pin diameter 0.8mm; maximum operating temp 180deg c

Material:

Plastic and steel

Material:

Plastic and steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T143-c
