Reliability Indicator:

Not established

Overall Length:

7.000 inches

Overall Height:

12.000 inches

Overall Width:

10.000 inches

Frequency Rating:

60.0 hertz single component

Input-output Phase Relationship:

Single phase to single phase single component

End Application:

Switch ay disconnect 185556 assembly 101

Inclosure Type:

Fully enclosed

Mounting Facility Quantity:

4 single group

Mounting Method:

Slot single group

Winding Operating Current:

25.0 amperes ac single component single secondary

Winding Operating Voltage:

240.00 ac pounds per hour wet 1st component all primary

Terminal Type And Quantity:

12 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
