**Overall Length:**

4.500 inches

**Overall Height:**

2.000 inches

**Overall Width:**

4.700 inches

**Inductance Rating:**

68.00 microhenries single component single primary

**Coil Form Type:**

Hollow single component

**Inclosure Type:**

Fully enclosed

**Rating Method:**

Electrical single component single primary

**Winding Operating Current:**

0.24 amperes dc single component single primary

**Dc Resistance Rating In Ohms:**

1.300 single component single primary

**Special Features:**

Ultra lo profile; ferrite core; op temp m30/p100 degrees c; magnetic shield

**Terminal Type And Quantity:**

2 bonding pad

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A058b0
