Reliability Indicator:

Not established

Overall Length:

45.34 millimeters

Overall Height:

60.31 millimeters

Overall Width:

43.9 millimeters

Frequency Rating:

50.0 hertz single component and 60.0 hertz single component

End Application:

Valve plt oper sol cont 4 way 3000psi mflld mnt

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single winding

Product Name:

Solenoid coil

Special Features:

Description: plug-in conduit box ac low watt solenoid coil for d1vw-91 design directional control valve; 120/110vac, 22/23 watts holding, .461/.525 current holding, 1.35/1.41 current inrush

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
