**Frequency Rating:**

1.0 megahertz single component and 360.0 megahertz single component

**Maximum Transformer Power Rating:**

250.0 milliwatts single component

**Maximum Operating Temp:**

85.0 degrees celsius

**Inclosure Type:**

Fully enclosed

**Special Features:**

30ma dc current; -55 to 125 degrees c storage temperature; 1: 4 impedance ratio; ct on secondary; surface mount; flux coupled step-up transformer; 2000 piece tape and reel packaging

**Terminal Type And Quantity:**

5 pin

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
