Frequency Rating:

1.0 megahertz single component and 360.0 megahertz single component

Maximum Transformer Power Rating:

250.0 milliwatts single component

Maximum Operating Temp:

85.0 degrees celsius

Inclosure Type:

Fully enclosed

Special Features:

30ma dc current; -55 to 125 degrees c storage temperature; 1: 4 impedance ratio; ct on secondary; surface mount; flux coupled step-up transformer; 2000 piece tape and reel packaging

Terminal Type And Quantity:

5 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
