Radio Frequency Coil - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5950-01-576-5895

Product Name:

Chip coils, high-frequency monolithic type lqg15h and lqg18h series

Special Features:

Shelf Life:

A058b0

High-q, stable inductance in high frequency is achieved by the unique low-capacitance structure, it is suitable for mobile communication equipment; the small size of lqg15h (1 by .5 by .5mm) is ideal for small mobile equipment; the external electrodes with nickel barrier structure provide excellent solder heat resistance
