Reliability Indicator:

Not established

Overall Length:

2.700 inches

Inductance Rating:

120.00 microhenries single component single winding

Body Length:

0.700 inches

Body Outside Diameter:

0.275 inches

End Application:

C47617-00 (19156) , monitor subsystem, azimuth

Winding Quantity:

1 single component

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single winding

Product Name:

Inductor, filter

Special Features:

Dc resistance 0.283 ohms, operating temp range: -55 to +105 eg c.

Terminal Type And Quantity:

2 pin

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
