Overall Length:

6.380 inches

Overall Height:

6.130 inches

Overall Width:

4.130 inches

Frequency Rating:

60.0 hertz single component

End Application:

Interface module: wsd: virginia class submarine, ssn-774

Winding Operating Current:

5.0 amperes ac single component single secondary and 0.5 amperes ac single component single secondary and 4.0 amperes ac single component single secondary

Winding Operating Voltage:

440.00 ac volts single component single primary

Product Name:

Navy-transformer, isolation, multiple output

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A058b0
