Electrical Coil - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5950-01-588-2592

Turn Quantity:
36 all components all winding
Core Construction:
S0lid single component
Body Outside Diameter:
0.720 inches
End Application:
Aircraft, sof (ac-130h, mc-130h, ec-130e, hc-130, mc-130w)
Inclosure Type:
Open
Rating Method:
Winding turns all components all winding and electrical all components all winding
Product Name:
Coil assembly pulse forming network
Special Features:
Freq: 2000 hz, circuit mode: series, current: 50 ma, inductance (uh) finish: min. 7.8 and max. 9.0
Terminal Type And Quantity:
19 wire loop
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A058b0
