NSN 5950-01-595-0190

Radio Frequency Coil - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5950-01-595-0190

Reliability Indicator:
Not established
Inductance Rating:
390.0 nanohenry all components single winding
Coil Form Type:
Solid single component
Body Length:
0.115 inches
Body Width:
0.110 inches
Body Height:
0.080 inches
Inclosure Type:
Open
Features Provided:
Rohs directive compliance
Product Name:
Product Name: Chip inductor - 1008ht series
Chip inductor - 1008ht series
Chip inductor - 1008ht series Terminal Type And Quantity:
Chip inductor - 1008ht series Terminal Type And Quantity: 2 wire lead
Chip inductor - 1008ht series Terminal Type And Quantity: 2 wire lead Shelf Life:
Chip inductor - 1008ht series Terminal Type And Quantity: 2 wire lead Shelf Life: N/a
Chip inductor - 1008ht series Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure:
Chip inductor - 1008ht series Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure:
Chip inductor - 1008ht series Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure: Demilitarization:
Chip inductor - 1008ht series Terminal Type And Quantity: 2 wire lead Shelf Life: N/a Unit Of Measure: Demilitarization: No
