**Reliability Indicator:**

Not established

**Overall Length:**

11.380 inches

**Overall Height:**

15.500 inches

**Overall Width:**

18.500 inches

**Frequency Rating:**

60.0 hertz single component

**End Application:**

Transformer, 9 kva d-w

**Winding Operating Voltage:**

450.00 ac volts single component single primary

**Special Features:**

Enclosure: ip24, delta/wye 9kva, 3 phase, bulkhead mounting, 11.6 primary amperes line, 25.0 secondary amperes line, 3 in. Min.

Clearance reqd for ventilation front side

**Terminal Type And Quantity:**

7 bus (bar) conductor

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
