## NSN 5950-01-597-2167

Power Transformer - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5950-01-597-2167 **Reliability Indicator:** Not established **Overall Length:** 11.380 inches **Overall Height:** 15.500 inches **Overall Width:** 18.500 inches Frequency Rating: 60.0 hertz single component **End Application:** Transformer, 9 kva d-w **Winding Operating Voltage:** 208.00 ac volts single component single secondary or 120.00 ac volts single component single secondary **Special Features:** Enclosure: ip24, delta/wye 9kva, 3 phase, bulkhead mounting, 43.3 primary amperes line, 25.0 secondary amperes line, 3 in. Min. Clearance reqd for ventilation front side **Terminal Type And Quantity:** 7 bus (bar) conductor Shelf Life: N/a **Unit Of Measure: Demilitarization:** 

No
