Reliability Indicator:

Not established

Overall Length:

11.200 inches

Overall Height:

16.620 inches

Overall Width:

24.810 inches

Frequency Rating:

60.0 hertz single component

End Application:

Transformer, 15 kva d-w

Winding Operating Voltage:

450.00 ac volts single component single primary

Special Features:

Enclosure: ip24, delta/wye 15kva, 3 phase, bulkhead mounting, 19.3 primary amperes line, 41.7 secondary amperes line, 4 in. Min.

Clearance reqd for ventilation front side

Terminal Type And Quantity:

7 bus (bar) conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
