Reliability Indicator:

Not established

Overall Length:

8.750 inches

Overall Height:

12.750 inches

Overall Width:

18.000 inches

Frequency Rating:

60.0 hertz single component

End Application:

Transformer, 3 kva d-d

Winding Operating Voltage:

450.00 ac volts single component single primary

Special Features:

Enclosure: ip24, delta/delta 3kva, 3 phase, bulkhead mounting, 3.85 primary amperes line, 8.3 secondary amperes line, 2 in. Min.

Clearance reqd for ventilation front side and 3 in. Min. Bottom side

Terminal Type And Quantity:

6 bus (bar) conductor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
