**Frequency Rating:**

60.0 hertz single component

**End Application:**

6110-01-563-2737 panel, control, electrical-electronic equipment for the reverse osmosis purifier

**Winding Operating Current:**

1000.0 amperes ac single component all winding

**Winding Operating Voltage:**

440.0 ac volts single component all winding

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
