Frequency Rating:

60.0 hertz single component

End Application:

6110-01-563-2737 panel, control, electrical-electronic equipment for the reverse osmosis purifier

Winding Operating Current:

1000.0 amperes ac single component all winding

Winding Operating Voltage:

440.0 ac volts single component all winding

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
