# Reliability Indicator:

Not established

# Overall Length:

2.070 inches

# Inductance Rating:

1800.0 microhenries single component single winding

# Body Length:

0.70 inches

#### **Body Outside Diameter:**

0.275 inches

## Maximum Operating Temp:

105.0 degrees celsius

## Winding Quantity:

1 single component

# Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single winding

## Winding Operating Current:

0.158 amperes dc single component single winding

# Dc Resistance Rating In Ohms:

4.03 single component single primary

# **Product Name:**

High current choke

#### **Terminal Type And Quantity:**

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

---

#### Demilitarization:

No

# Fiig:

A058b0
