Reliability Indicator:

Not established

Overall Length:

2.070 inches

Inductance Rating:

820.0 microhenries single component single winding

Body Length:

0.70 inches

Body Outside Diameter:

0.275 inches

Maximum Operating Temp:

105.0 degrees celsius

Winding Quantity:

1 single component

Inclosure Type:

Fully enclosed

Rating Method:

Electrical single component single winding

Winding Operating Current:

0.200 amperes dc single component single winding

Dc Resistance Rating In Ohms:

1.96 single component single primary

Product Name:

High current choke

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
