Electrical Coil - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5950-01-622-7449

Reliability Indicator: Not established **Overall Length:** 2.070 inches **Inductance Rating:** 22000.0 microhenries single component single winding **Body Length:** 0.70 inches **Body Outside Diameter:** 0.275 inches **Maximum Operating Temp:** 105.0 degrees celsius **Winding Quantity:** 1 single component **Inclosure Type:** Fully enclosed **Rating Method:** Electrical single component single winding **Winding Operating Current:** 0.125 amperes dc single component single winding Dc Resistance Rating In Ohms: 21.8 single component single primary **Product Name:** High current choke **Terminal Type And Quantity:** 2 wire lead Shelf Life: N/a

Unit Of Measure: Demilitarization: No

Fiig: A058b0
