| Overall Length:                       |
|---------------------------------------|
| 0.118 millimeters                     |
| Overall Height:                       |
| 6.47 millimeters                      |
| Overall Width:                        |
| 6.86 millimeters                      |
| Inclosure Type:                       |
| Fully enclosed                        |
| Rating Method:                        |
| Electrical all components all control |
| Product Name:                         |
| Low profile high current inductor     |
| Terminal Type And Quantity:           |
| 2 printed circuit                     |
| Shelf Life:                           |
| N/a                                   |
| Unit Of Measure:                      |
|                                       |
| Demilitarization:                     |
| No                                    |
| Fiig:                                 |
| A058b0                                |
|                                       |
