**Coil Form Type:**

Solid single component

**End Application:**

Lead in lighting syste (ldin)

**Mounting Method:**

Terminal single group

**Features Provided:**

Tinned wire leads

**Product Name:**

Inductor; air coil, dual

**Special Features:**

Finish, double varnish dip and bake; 2 coils req'd per system; coil parameter, single coil inductance, .600mh; dual coil inductance, 1.275mh; dual impedance, .325ohms

**Terminal Type And Quantity:**

2 wire lead

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A058b0
