Coil Form Type:

Solid single component

End Application:

Lead in lighting syste (ldin)

Mounting Method:

Terminal single group

Features Provided:

Tinned wire leads

Product Name:

Inductor; air coil, dual

Special Features:

Finish, double varnish dip and bake; 2 coils req'd per system; coil parameter, single coil inductance, .600mh; dual coil inductance, 1.275mh; dual impedance, .325ohms

Terminal Type And Quantity:

2 wire lead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
