Radio Frequency Coil - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5950-01-630-0332

Coil Form Type:
Solid single component
End Application:
Lead in lighting syste (Idin)
Mounting Method:
Terminal single group
Features Provided:
Tinned wire leads
Product Name:
Inductor; air coil, dual
Special Features:
Finish, double varnish dip and bake; 2 coils req'd per system; coil parameter, sincle coil inductance, .600mh; dual coil inductance,
1.275mh; dual impedance, .325ohms
Terminal Type And Quantity:
2 wire lead
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A058b0
