Overall Length:

7.750 inches

Overall Width:

6.690 inches

Frequency Rating:

60.0 hertz single component

End Application:

Used on: emergency power distribution switchboard

Winding Operating Voltage:

115.0 ac volts and 460.0 ac volts single component single tertiary

Product Name:

(navy) potential transfrmr; (dwg title) potential, transformer

Special Features:

Contract control no.: pvr388724; dwg is itar

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
