| End Application:                              |
|---|
| An/wsq-42                                     |
| Winding Operating Voltage:                    |
| 24.0 dc volts single component single winding |
| Product Name:                                 |
| (inavy) coil, 24vdc                           |
| Special Features:                             |
| Descritpion: coil, 24vdc; hydroair; zae16-81  |
| Shelf Life:                                   |
| N/a   |
| Unit Of Measure:                              |
|   |
| Demilitarization:                             |
| No  |
