Overall Length:

0.079 inches

Overall Height:

0.049 inches

Specified Frequency:

100.0 megahertz

Unit Design:

Rectangular

Product Name:

High current multilayer ferrite beads

Special Features:

Terminal strength: 0.6 kg (1.3 lbs); beam strength: 1.0 kg (2.2 lbs); surface mountable; current rating up to 6 a; magnetically self shielded; nickel barrier plating virtually eliminates silver migration; operating temp: -55 ?C to +125 ?C; thermal shock: 100 cycles, -40 ?C to +125 ?C; based humidity: 85% rh at 85?C, 1000 h at full rated current

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A515h0
