Reliability Failure Rate Level In Percent:

10.0

Overall Length:

2.0 millimeters

Overall Height:

1.25 millimeters

Overall Width:

1.25 millimeters

Inductance Rating:

2.2 microhenries single component all winding

Maximum Operating Temp:

85.0 degrees celsius

Inclosure Type:

Fully enclosed

Mounting Method:

Terminal single group

Product Name:

Inductors for standard circuits; multilayer/std magnetic shielded; mlf series

Special Features:

Rohs compliant

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
