Reliability Failure Rate Level In Percent:

10.0

Overall Length:

2.0 millimeters

Overall Height:

1.25 millimeters

Overall Width:

0.85 millimeters

Inductance Rating:

1.5 microhenries single component all winding

Maximum Operating Temp:

85.0 degrees celsius

Inclosure Type:

Fully enclosed

Mounting Method:

Terminal all groupings

Product Name:

Inductor for standard circuits multilayer/std magnetic shield; mlf series

Special Features:

Rohs compliant

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A058b0
