Reliability Failure Rate Level In Percent:
10.0
Overall Length:
2.0 millimeters
Overall Height:
1.25 millimeters
Overall Width:
1.25 millimeters
Inductance Rating:
3.9 microhenries single component all winding
Maximum Operating Temp:
85.0 degrees celsius
Inclosure Type:
Fully enclosed
Mounting Method:
Terminal single group
Product Name:
Inductors for standard circuits multilayer/std magnetic shielded
Special Features:
Rohs compliant
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Filg:
A058b0
