**Body Length:**

0.071 inches

**Body Width:**

0.044 inches

**Body Height:**

0.040 inches

**Inclosure Type:**

Hermetically sealed

**Rating Method:**

Electrical single component single winding

**Dc Resistance Rating In Ohms:**

0.250 single component single winding

**Product Name:**

Chip inductor

**Special Features:**

Core material: ceramic; weight: 3.5-3.7 mg; tolerance: 5%

**Terminal Type And Quantity:**

2 bonding pad

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A058b0
